INTRODUCTION

In general, the legislation listed in this guide applies to England and Wales only (unless otherwise stated). Similar legislation applies to Scotland and Northern Ireland. However, the Food Safety Act 1990, and new regulations made under it from 1990 onwards, apply to Great Britain unless stated otherwise.

The Food Standards Agency became operational on the 3rd of April 2000 in accordance with the Food Standards Act 1999 and the Commencement Orders – The Food Standards Act 1999 (Commencement No 1) Order 2000 and Food Standards Act 1999 (Commencement No 2) Order 2000 - which preceded the Act.

Consequently, and in pursuance of The Food Standards Act 1999 (Transitional and Consequential Provisions and Savings) (England and Wales) Regulation 2000, functions and powers, in relation to food safety, consumer protection and animal feed, which were hitherto exercised by the Secretary of State for Environment, Food and Rural Affairs and the Secretary of State for Health have now been transferred to the Food Standards Agency.

This Guide is updated every quarter. However, our website provides a much more recent version of the current food law legislation on:
<http://www.food.gov.uk/multimedia/pdfs/foodlaw.pdf>

Wherever possible this guide states which EC rules are implemented in our food law by the regulations listed on the following pages. The guide also provides contact details for further information at the end of each section. Alternatively, enquiries can be made through the Agency's Enquiry Point Tel: 0207 276 8830.

These notes are intended only as a general guide, for definitive information the appropriate Act, Order, Regulation or Code of Practice should be consulted.

PART 1: FOOD SAFETY

THE FOOD SAFETY ACT 1990 (CHAPTER 16)

A. GENERAL

The main provisions of the Food Safety Act 1990 came into force on 1 January 1991. The Act covers Great Britain and provides the framework for all its food legislation.

B. KEY PROVISIONS OF THE FOOD SAFETY ACT 1990

PART I: PRELIMINARY

Section 1 defines "food" and other basic expressions used in the Act such as "food business", "food premises" and "food source". **Section 2** extends the meaning of sale to include food supplied in the course of a business and **Section 3** sets out presumptions applying to food and food ingredients, for instance that food commonly used for human consumption found on certain food premises is presumed to be intended for sale.

PART II: MAIN PROVISIONS

Section 7 describes the offence of rendering food injurious to health and **Section 8** sets out the offence of selling or possessing for sale food that does not comply with food safety requirements. This is food that has been rendered injurious to health, which is unfit for human consumption or is so contaminated that it would not be reasonable to expect it to be used for human consumption. **Section 8** also states that if any part of a batch of food does not comply with food safety requirements the whole batch is presumed not to comply, unless the contrary is proved.

Section 14 makes it an offence to sell food which is not of the "nature or substance or quality" demanded by the purchaser and **Section 15** creates an offence of falsely describing, advertising or presenting food.

General Enforcement Provisions

Section 9 of the Food Safety Act gives enforcement officers powers to inspect any food intended for human consumption and to detain and seize food suspected of not complying with food safety requirements. It allows a Justice of the Peace to condemn food when he or she is satisfied that food safety requirements are not met. **Section 10** provides for improvement notices to be issued where food hygiene or food processing regulations have been contravened. **Section 11** provides for prohibition orders to be issued by the courts where there is a risk of injury to health and the proprietor of the food business has been convicted of an offence under food hygiene or food processing regulations. **Section 12** provides emergency prohibition powers for use by authorised officers where there is an imminent risk of injury to health. **Section 13** gives Ministers powers to make emergency control orders prohibiting commercial operations in relation to food, food sources or contact materials when there is an imminent risk of such food causing such injury to health.

Defences

Section 20 enables an enforcement authority to "by-pass" the immediate offender and to prosecute the real offender. Section 21 provides for a defence if defendants can prove to a court that they took all reasonable precautions and exercised all due diligence to avoid committing an offence. The defendant is deemed to have satisfied this due diligence defence in certain circumstances. These deemed due diligence defences are not available to a defendant who manufactured or imported the food. Section 22 contains a special defence for businesses which publish an advertisement in good faith.

PART III: ADMINISTRATION AND ENFORCEMENT

Section 32 sets out who may enter premises to enforce the Act and explains what they can do while on premises. It also makes unauthorised disclosure of information obtained when using such powers an offence.

Section 33 makes it an offence intentionally to obstruct a person enforcing the Act or to provide false or misleading information.

Section 34 provides time limits for prosecutions.

Penalties and Modes of Trial

Section 35 sets out the penalties for offences. For most offences a Crown Court may impose a prison sentence of up to two years and/or unlimited fines. Magistrates' Courts generally may impose a fine of up to £5,000 and a prison sentence of up to six months. For the most serious offences Magistrates' Courts may impose a maximum fine of £20,000. Magistrates' Courts may also impose penalties for obstructing an enforcement officer. In Scotland equivalent penalties may be imposed by the Sheriff.

Section 36 provides that someone in authority in a corporate body is liable for prosecution where they are proved to have acted negligently or consented to the alleged offence. **Sections 37 and 39** provide for appeals against decision of an enforcement authority to serve an improvement notice, and to refuse certificates under **Section 11(6) or 12(8)**. The appeal is to a Magistrates' Court or, in Scotland, to the Sheriff, and further appeals are available to the Crown Court for the cases referred to in **Section 38**.

Offences against regulations and mode of trial may be detailed in the individual regulations having effect under the Act. Penalties and modes of trial in individual regulations having effect under the Act have been altered by specific penalty Regulations. These are the Food (Revision of Penalties) Regulations 1982 and the Milk and Dairies (Revision of Penalties) Regulations 1982 which lay down the mode of trial and the Food (Revision of Penalties) Regulations 1985 which lay down the maximum fines for summary convictions for offences under the regulations. Existing regulations with offences and penalties have also been amended by Consequential Modifications Orders made under the Act (see section C).

PART IV: MISCELLANEOUS AND SUPPLEMENTAL

Section 54 provides for the Act to apply to the Crown and to Crown premises subject to special arrangements and certain exemptions. The Section came into effect on 1 April 1992. **Section 55** amends the Water Act 1989 to extend its controls on the quality of water used for domestic purposes to cover water used in food production.

NO.L43.14.2.97);

They also implement Commission Directive 87/250/EEC (OJ No. L113, 30.4.87) on the indication of alcoholic strength by volume in the labelling of alcoholic beverages for sale to the ultimate consumer;

Council Directive 89/398/EEC (OJ No. L186, 30.6.89) on the approximation of the laws of the Member States relating to foodstuffs intended for particular nutritional uses;

Commission Directive 1999/10/EC (OJ No L69, 10.3.99) providing for derogation from the provisions of Article 7 of Council Directive 79/112/EC as regards the labelling of foodstuffs.

The principal provisions of the regulations which apply to Great Britain are that all food which is ready for delivery to the ultimate consumer or to a catering establishment, subject to certain exceptions, be marked or labelled with:

- (a) the name of the food;
- (b) a list of ingredients;
- (c) the appropriate durability indication, that is to say;

(l) in the case of a food other than one specified in subparagraph (ii) of this paragraph, an indication of minimum durability (a "best before" date);

- (ii) in the case of food which, from the microbiological point of view is highly perishable and in consequence likely after a short period to constitute an immediate danger to health, a “use by” date;
- (d) any special storage conditions or conditions of use;
- (e) the name or business name and an address or registered office of the manufacturer or packer, or of a seller established within the European Community;

and in certain circumstances:

- (f) particulars of the place of origin of the food, if failure to give such particulars might mislead and;
- (g) instructions for use if it would be difficult to make appropriate use of the food in the absence of such instructions;

(NB - There are certain exemptions and additional requirements listed in the main regulations.)

There are less onerous rules for foods which are non-pre-packed or pre-packed for direct sale.

These Regulations also attach conditions to the use of claims for foods for particular nutritional uses, reduced or low energy value claims, protein claims, vitamin or mineral claims, cholesterol claims, other nutrient claims and claims dependent on other foods; they prohibit medicinal claims. They also lay down a prescribed format for the nutritional labeling of foodstuffs.

The Regulations are amended by:

1998	No 141	The Bread and Flour Regulations 1998
1998	No 1398	The Food Labelling (Amendment) Regulations 1998 - implement Council Directive 97/4/EC (OJ No. L43, 14.2.97, p. 21) (commonly known as “QUID”) amending Directive 79/112/EEC particularly in relation to indication of quantity of ingredients.

1999	No 747	The Food Labelling (Amendment) Regulation 1999 – provide for the enforcement of Council Regulation (EC) No.11398 (OJ No. L159, 3.6.98, p4) concerning the compulsory indication, on the labelling of certain foodstuffs produced from genetically modified organisms, of particulars, other than those provided for in Directive 79/112/EEC. The products concerned are those which are to be delivered as such to the final consumer having been produced in whole or in part from genetically modified soya or maize.
1999	No 1136	The Miscellaneous Food Additive (Amendment) Regulations 1999.
1999	No 1483	The Food Labelling (Amendment) (No.2) Regulation 1999 – Implement Commission Directive 1999/10/EC (OJ No. L69,16.3.1999, p.22) providing for derogations on QUID.
1999	No.1540	The Natural Mineral Water, Spring Water and Bottled Water Regulation 1999.

B: DECLARATION ON ADDITIVES

This is a general description of the requirements to declare additives used as ingredients in foods as provided by the Food Labelling Regulations 1996.

Additives used as ingredients to perform certain functions in pre-packed foods must be declared on the label. The appropriate category name of the additives function must be followed by its specific name or serial number. The categories are:

Acid	Flour treatment agent
Acidity regulator	Gelling agent
Anti-caking agent	Glazing agent
Anti-foaming agent	Humectant
Antioxidant	Modified starch
Bulking agent	Preservative
Colour	Propellant gas
Emulsifier	Raising agent
Emulsifying Salts	Stabiliser
Firming agent	Sweetener
Flavour enhancer	Thickener

There are other requirements of the regulations that apply to 3 specific categories and that applies when the additive serves more than one function

Flavourings may be declared by either that name alone or by a more specific name.

In the case of acids, if the specific name includes the word “acid”, the category name may be omitted.

In the case of modified starches, neither the specific name nor the serial number need be indicated.

If an additive serves more than one function in a food the category name which represents its principal function must be used to describe it. Where no category name is available for the function performed by an additive in a food, the additive must be declared in the ingredients list by its specific name. A serial number cannot be used on its own.

In most instances, non-prepacked foods and foods which are pre-packed on the premises where they are sold are exempt from the above requirements. Exceptions are that any additive used in the food to perform the function of an antioxidant, artificial sweetener, colour, flavour enhancer or preservative must be indicated next to the name of the food, or on a ticket or notice displayed in immediate proximity to the food using the category name. However, in the case of edible ices and flour confectionery there need only be an indication that these additives may be present on a notice displayed near the food.

C: LOT MARKING REGULATIONS

1996 No 1502 **THE FOOD (LOT MARKING) REGULATIONS 1996** - set out the lot marking requirements to be applied to all foodstuffs sold for human consumption (unless specifically exempted) including wines and spirits. They apply to Great Britain and came into force on 1 July 1996. They implement Council Directive 89/396/EEC (OJ No. L186, 30.6.89) on indications and marks identifying the lot to which a foodstuff belongs, as amended by Council Directives 91/238/EEC (OJ No. L107, 27.4.91) and 92/11/EEC (OJ No. L65, 11.3.92). The Directive

THE MATERIALS AND ARTICLES IN CONTACT WITH FOOD REGULATIONS 1987 - re-enact the Materials and Articles in Contact with Food Regulations 1978, as amended; and implement Council Directive 83/229/EEC (OJ No. L123, 11.5.83), as amended by Commission Directive 86/388/EEC (OJ No. L128, 14.8.86).

These Regulations:

- set out the general requirement that all food contact materials and articles should not transfer their constituents to food in quantities which could endanger human health or make the food otherwise unacceptable to consumers;
- lay down requirements for labelling materials and articles as suitable for food contact use;
- restrict the use of vinyl chloride monomer (VCM) in the manufacture of food contact plastics, by setting a residual limit of 1 milligram VCM per kilogram of material or article and a migration limit of 0.01 milligrams VCM per kilogram of food, and laying down the laboratory methods for testing compliance with these restrictions; and
- place controls on food contact Regenerated Cellulose Film (RCF), by establishing a “positive list” of substances that can be used in the manufacture of coated and uncoated RCF, and setting migration limits for some substances.

The 1978 regulations implemented the framework Council Directive 76/893/EEC, which was replaced by Council Directive 89/109/EEC (OJ

No. L 40 of 11.2.89). The 1987 regulations, which re-enact the 1978 regulations, did not require amendment to implement 89/109/EEC.

The Regulations are amended by:

- 1990 No 2487 The Food Safety Act 1990 (Consequential Modifications) (No. 2) (Great Britain) Order 1990;
- 1991 No 1476 The Food Safety (Exports) Regulations 1991, which implement Articles 2 and 3 of Council Directive 89/397/EEC (OJ No. L186, 30.6.89); and
- 1994 No 979 The Materials and Articles in Contact with Food (Amendment) Regulations 1994, which implement Commission Directive 93/10/EEC (OJ No. L94, 17.4.93), as amended by Commission Directive 93/111/EEC (OJ No. L310, 14.12.93) and Commission Directive 92/15/EEC (OJ No. L102, 16.4.92) amending Council Directive 83/229/EEC (OJ No. L123, 11.5.83).
- 1998 No 1376 **THE PLASTIC MATERIALS AND ARTICLES IN CONTACT WITH FOOD REGULATIONS 1998** - which consolidate previous legislation on food contact plastics and implement Commission Directive 97/48/EC (OJ No. L222, 12.8.97), the second amendment to Council Directive 82/711/EEC.

The 1998 Regulations:

- set an overall migration limit for all food contact plastics of 10 milligrams per square decimetre of plastic surface area, in general, or 60 milligrams per kilogram of food, specifically for containers (or similar receptacles) with a capacity of from 0.5 to 10 litres, or which have a contact area that cannot be determined, and for sealing devices, such as caps, gaskets and stoppers;
- establish “positive lists” of monomers and starting substances permitted for use in the manufacture of food contact plastics. Many of the substances have a time limit on their use. Some of the substances have specific migration limits. The Regulations also establish an “incomplete list” of additives approved by the EC’s Scientific Committee for Food for use in food contact plastics; and
- lay down the basic rules necessary, including test times, temperatures and simulants, for testing migration from food contact plastics, and thereby for checking compliance with the requirements of the Regulations.

The Regulations are amended by:

- 1972 No 1957 **THE COOKING UTENSILS (SAFETY) REGULATIONS 1972** - these Regulations (which do not implement EC legislation) restrict the lead content of tin or other metallic coatings on kitchen utensils.
- 1988 No 1647 **THE CERAMIC WARE (SAFETY) REGULATIONS 1988** - implement Council Directive 84/500/EEC (OJ No. L277, 20.10.84). These Regulations require compliance with British Standard 6748:1986, which sets limits for the migration of lead and cadmium from ceramic articles.

- 1995 No 1012 **THE N-NITROSAMINES AND N-NITROSATABLE SUBSTANCES IN ELASTOMER OR RUBBER TEATS AND DUMMIES (SAFETY) REGULATIONS 1995** - implement Commission Directive 93/11/EEC (OJ No. L93, 17.4.93). These Regulations restrict the amount of release of N-nitrosamines and N-nitrosatable substances in the rubber of babies' teats and dummies.
- 2000 No 3162 **THE PLASTIC MATERIALS AND ARTICLES IN CONTACT WITH FOOD (AMENDMENT) (ENGLAND) REGULATIONS 2000**, which implement Commission Directive 1999/91/EC (OJ No. L310, 04.12.1999)

The new legislation creates offences in respect of breaches of the provisions of these Regulations and

specifies the penalties involved. They apply to approved operators of incinerators or rendering plants, approved under the Specified Bovine Material (No. 2) Order 1996 and to licensed operators of slaughterhouses licensed under the Fresh Meat (Hygiene and Inspection) Regulations 1995, whose premises are designated under the terms of Commission Regulation 716/96.*1996 No 2097The Fresh Meat (Beef Controls) (No. 2) Regulations 1996, made under the Food Safety Act 1990, came into force on 1 September 1996. The Regulations prohibit the sale for human consumption of meat from any bovine animal slaughtered on or after 29 March 1996 in which, at the time of slaughter, there were more than two permanent incisors erupted, unless it can be proved by reference to documentary evidence that the animal was no more than two years and six months old. The Regulations provide an exemption from this prohibition for meat from certain third countries and meat from eligible cattle from herds registered under the Beef Assurance Scheme. The Regulations also set out the operating rules of the Beef Assurance Scheme.

1996 No 2522

The Fresh Meat (Beef Controls) (No 2) (Amendment) Regulations 1996, made under the Food Safety Act 1990, came into force on 4 October 1996. The Regulations amend provisions on the Beef Assurance Scheme contained in the Fresh Meat (Beef Controls) (No 2) Regulations 1996. The Beef Assurance Scheme provisions on feed are amended to:

- i) allow herds which have used feed from any mills which have not used any mammalian meat and bonemeal on the premises in the previous four years to be eligible; and
- ii) allow herds which have not been fed feed which contains mammalian meat and bonemeal to continue membership of the Beef Assurance Scheme.

The Regulations also clarify that the feed requirements are concerned with mammalian meat and bonemeal.

The Regulations also provide an exemption from the rule that the herd shall have been established for at least four years, where new herds are established entirely from animals in herds already registered under the Scheme.

Conditions) Regulations 1996 implement certain of the requirements of Commission Regulation No. 1484/96 (OJ No. L188, 27.7.96) adopting the exceptional support measures for the beef market in the UK by application of Commission Decision 96/385 (OJ No. L151, 26.6.96).

*1997 No 2959

The Beef Bones Regulations 1997 - made under the Food Safety Act 1990 came into force on 16 December 1997. The Regulations require all beef from animals aged over 6 months, whether home supplied or imported, to be deboned before it is sold to consumers; prohibit bone-in beef from such animals to be used to prepare food; prohibit bones removed from such animals in Great Britain from being sold for human consumption or to be used in the preparation of food; and require that such bones be disposed of in accordance with

the Animal By-Products Order 1992. (see below for amendments to this Regulations)

- *1999 No 539 **The Specified Risk Material (Inspection Charges) Regulations 1999**, made under the Food Safety Act 1990, came into force on 29 March 1999. These Regulations enable the Minister to charge the occupiers of licensed slaughterhouses or cutting premises at which SRM is removed for the costs incurred in undertaking the inspections and controls permitted by the Specified Risk Material Regulations 1997. They also amend the 1997 Regulations to allow the withdrawal of these inspections and controls for non-payment of the charge and to prohibit the sale for human consumption of a carcass which has not been so inspected.
- 1999 No 882 **The BSE (Feeding Stuffs and Surveillance) Regulations 1999** - made under the European Communities Act 1972, puts the existing feed sampling programme on a statutory basis, implementing the relevant part of EC Decision 95/287/EC (OJ No. L181/40, 1.8.95), and makes minor changes to the way in which we investigate BSE cases, to take account of the requirements of Commission Decision 98/272/EC (OJ No. L122/59, 24.4.98).
- 1999 No 1103 **The Bovines and Bovine Products (Trade) Regulations 1999** - implement in Great Britain the requirements of Council Decision 98/256/EC (OJ No. L13/32, 15.4.98), as amended by Commission Decisions 98/564/EC (OJ No. 273/37, 9.10.98) and 98/692/EC (OJ No. 328/28, 4.12.98), on emergency measures to protect against BSE. They prohibit the despatch from GB to third countries and Member States of bovine animals and embryos and meat and other products derived from bovine animals slaughtered in the UK. However, together with the equivalent Regulations in Northern Ireland, they provide for a derogation from this ban for - beef, beef products etc. from Northern Ireland produced in accordance with the Export Certified Herd Scheme rules and beef, beef products etc. from the UK produced in accordance with the Date Based Export Scheme rules. Furthermore, they make provision in respect of controls on products and by-products produced from UK and foreign origin bovines, and also prescribe controls governing the export of meat and other products derived from bovines slaughtered outside the UK.
- 1999 No 1154 **The Bovines and Bovine Products (Trade) (Amendment) Regulations 1999** make a minor amendment to Regulation 13(2) of the Bovines and Bovine Products (Trade) Regulations 1999.
- 1999 No 3371 **The Beef Bones (Amendment) (England) Regulations 1999** - amend Beef Bones Regulations 1997 insofar as they extend to England and Permit: the retail sale of beef bones and beef-in bone; the use of

bone-in beef; beef bones and substances derived from beef bones in the production of food at catering and take-away premises; the sale at such premises of food produced there containing ingredients consisting of beef bones or containing ingredients derived from beef bones.

2000 No 656 The Food Standards Act 1999 (Transitional and Consequential Provisions and Savings) (England and Wales) Regulations 2000.

2000 No 3378 **The Fresh Meat (Beef Controls) (No2) (Amendment) (England) Regulations 2000** - These Regulations amend the Fresh Meat (Beef Controls) (No. 2) Regulations 1996 (S.I. 1996/2097, as already amended) in so far as they extend to England. The 1996 Regulations extend to the whole of Great Britain.

These Regulations provide for the enforcement of Article 2.1 of Commission Regulation (EC) No. 2777/2000 adopting exceptional support measures for the beef market (OJ No. L321, 19.12.2000, p. 47). That Article, which is applicable until 30th June 2001 at the latest, provides that meat from bovine animals aged more than 30 months and slaughtered in the Community after 1st January 2001 can only be released for human consumption or for export if tested negatively for bovine spongiform encephalopathy by an approved rapid test as referred to in Annex IV(A) of Commission Decision 98/272/EC (OJ No. L122, 24.4.98, p. 59, as amended). Annex IV(A) was inserted into that Decision by Commission Decision 2000/374/EC (OJ No. L135, 8.6.2000, p. 27).

2001 No 1704 **The Animal By-Products (Amendment) (England) Order 2001** – came into force on 24 May 2001. Banned the swill feeding to livestock of catering waste containing meat, or which has come into contact with meat.

2001 No 2376 The Processed Animal Protein (England) Regulations 2001 – came into force on 1 August 2001. Implemented EU-wide BSE-related feed control requirements on processed animal proteins in relation to animals which are kept, fattened or bred for the production of food, as set out in Decisions 2000/766, 2001/9 and 2001/165. [Revoked by the TSE (England) Regulations 2002]]

2002 No 843 The TSE (England) Regulations 2002 – came into force on 19 April 2002. The Community TSE Regulation 999/2001 aimed to provide a secure legal basis for the full range of Community measures against Transmissible Spongiform Encephalopathies (TSEs). Many of its provisions were already in force under UK legislation, but for the sake of clarity and completeness, most relevant pieces of English legislation have been consolidated into this set of Regulations, adjusted where necessary to take account of EU requirements.

2002 No 1253 The TSE (England) (Amendment) Regulations 2002 – came into force on 27 May 2002. Corrected errors in the original Regulations.

C: FEEDINGSTUFFS

THE AGRICULTURE ACT 1970 (as amended)

This is the primary legislation governing control on animal feedingstuffs. Part IV of the Act, which regulates the preparation and sale of animal feedingstuffs, requires that they should be "sound, genuine and of merchantable quality" -- that is, fit for their intended purpose and free from harmful ingredients. Part IV of the Act also requires that sellers of feedingstuffs should provide purchasers with a "statutory statement" -- i.e., a label -- in the form and containing the information laid down in the regulations (which are made under secondary

legislation, and subject to amendment); and provides for the control and enforcement of these rules by the relevant authorities.

The following sets of Regulations are made under Part IV of the Act

2001 No 3389 **THE FEEDING STUFF AND FEEDING STUFF (ENFORCEMENT)
(AMENDMENT) (ENGLAND) REGULATIONS 2001**

These Regulations, which apply to England only, amend the Feeding Stuffs Regulations 2000 ("the principal Regulations") and implement - (a) Directive 2000/16/EC of the European Parliament and the Council amending Council Directive 79/393/EEC on the marketing of compound feedingstuffs and Council Directive 96/25/EC on the circulation of feed materials (OJ No. L105, 3.5.2000, p.36), and

(b) Commission Decision 2000/285/EEC amending Decision 91/516/EEC establishing a list of ingredients whose use is prohibited in compound feedingstuffs (OJ No. L94, 14.4.2000, p.43).

The Regulations also provide for the enforcement of the following new European Community Regulations –

(a) Commission Regulation (EC) No. 2437/2000 concerning the permanent authorisation of an additive and the provisional authorisation of new additives in feedingstuffs (OJ No. L280, 4.11.2000, p.28),

(b) Commission Regulation (EC) No. 418/2001 concerning the authorisation of new additives and uses of additives in feedingstuffs (OJ No. L62, 2.3.2001, p.3), and

(c) Commission Regulation (EC) No. 937/2001 concerning the authorisation of new additive uses, new additive preparation, the prolongation of provisional authorisations and the 10 year authorisation of an additive in feedingstuffs (OJ No. L130, 12.5.2001, p.25).

The main changes to the principal Regulations are as follows:

(a) the controls on the sale and possession with a view to sale of compound feeding stuffs are extended to cover their supply other than by sale, and their possession with a view to such supply (regulations 7, 8, 14 and 19(a), (f), (g), (i), (j), and (k));

(b) prohibitions are added on the importation, supply, possession with a view to such supply and use of feed materials harmful to animals, to humans consuming products of such animals or to the environment. As regards the environment, the prohibition is applied also to sale and possession with a view to sale (regulation 9),

(c) the prohibition on the sale for use as a compound feeding stuff, or use as such a feeding stuff, of "sludge from sewage plants treating

waste water", is replaced by one on the sale or use of "waste obtained from the treatment of waste water" (regulation 13);

(d) additional labelling requirements are prescribed for feed materials and compound feeding stuffs (regulation 19(c) and (e) respectively);

(e) the scope of certain provisions, previously applying only in relation to member States of the European Community, is extended to cover all States which are signatories to the Agreement on the European Economic Area (Regulations 6, 10, 12 and 20).

In addition, the Regulations make minor and consequential amendments to the principal Regulations and consequential amendments to the Feeding Stuff (Enforcement) Regulations 1999.

2000 656

THE FOOD STANDARDS ACT 1999 (TRANSITIONAL AND CONSEQUENTIAL PROVISIONS AND SAVINGS) (ENGLAND AND WALES) REGULATIONS 2000 transferred, in Regulation 14, the power to make secondary legislation under Part IV of the Agriculture Act 1970 from the Secretary of State for Environment, Food and Rural Affairs to the Secretary of State for Health.

2000 2481

THE FEEDING STUFFS REGULATIONS 2000 cover the composition, labelling and marketing of animal feedingstuffs and contain provisions relating to the additives, trace elements, and vitamins which they may contain, the maximum levels of certain contaminants, labelling information to be provided to purchasers, and the dietetic claims which may be made for certain products. The Regulations apply to England (Scotland, Wales and Northern Ireland have separate but parallel legislation) and implement the following main EC Directives:

Council Directive 70/524/EEC (OJ No L270, 14.12.70) concerning additives in feeding stuffs;

Council Directive 79/373/EEC (OJ No L86, 6.4.79) on the marketing of compound feedingstuffs;

Council Directive 80/511/EEC (OJ No L125, 21.5.80) authorising, in certain cases, the marketing of compound feedingstuffs in unsealed packages and containers;

Council Directive 82/471/EEC (OJ No L213, 21.7.82) concerning certain products used in animal nutrition;

Commission Decision 91/516/EEC (OJ No L281, 9.10.91) concerning prohibited ingredients in animal nutrition;

Council Directive 93/74/EEC (OJ No L237, 22.9.93) on feedingstuffs intended for particular nutritional purposes;

Council Directive 96/25/EC (OJ No L125, 23.5.96) on the circulation of feed materials;

Council Directive 1999/29/EC (OJ No L115, 4.5.1999) on undesirable products and substances in animal nutrition;

Commission Directive 1999/79/EC (OJ No L209, 7.8.1999) concerning Community methods of analysis for the official control of feedingstuffs.

2000 1663

THE FEEDING STUFFS (SAMPLING AND ANALYSIS)

REGULATIONS 1999 set out methods for sampling and analysing certain additives and feed constituents, such as protein, fibre and ash, for the enforcement of labelling provisions, and also methods of sampling and analysing certain undesirable substances. The Regulations apply to Great Britain (Northern Ireland has separate but parallel legislation) and implement the following EC Directives:

Council Directive 70/373/EEC (OJ No Lxx, 20.7.70) establishing Community methods of sampling and analysis for the official control of feedingstuffs.

New methods and amendments to existing methods are introduced by Commission amending Directives. The most recent of these are:

Commission Directive 93/28/EEC (OJ No L179, 22.7.93);

Commission Directive 94/14/EEC (OJ No L94, 13.4.94);

Commission Directive 98/88/EC (OJ No L138, 27.11.98).

1999 1872

THE FEEDING STUFFS (ESTABLISHMENTS AND INTERMEDIARIES) REGULATIONS 1999

lay down the conditions and arrangements for approving and registering a broad range of establishments and intermediaries operating in the animal feed sector, including the manufacturers of certain additives, premixtures and compound feeds which incorporate them, certain agricultural merchants, farmers who mix their own feed, and establishments incorporating materials with undesirable substances above specified levels. The approval and registration scheme extends to products from establishments in third countries exporting to the EU, to ensure that imported additives, premixtures and feedingstuffs meet the same quality control standards. The Regulations, which apply on a UK-wide basis, implement the following EC Directives:

Council Directive 95/53/EC (OJ No L265, 8.11.95) fixing the principles governing the organisation of official inspections;

Council Directive 95/69/EC (OJ No L332, 30.12.95) laying down the conditions and arrangements for approving and registering certain establishments and intermediaries;

Article 1.10 of Council Directive 96/51/EC (OJ No L235, 17.9.96);

Articles 6, 8 and 9 of Commission Directive 98/51/EC (OJ No L208, 24.7.98) laying down certain measures for implementing Directive 95/69.

1999 2325

THE FEEDING STUFFS (ENFORCEMENT) REGULATIONS 1999

strengthen the existing enforcement provisions of Part IV of the Agriculture Act 1970, giving authorities greater access to products and records and increased powers of inspection, seizure and sampling. The Regulations, which apply on a UK-wide basis, also implement the following EC Directives intended to ensure even enforcement of feed legislation in Member States:

Council Directive 95/53/EC (OJ No L265, 8.11.95) fixing the principles governing the organisation of official inspections (insofar as this is not already implemented elsewhere);

Council Directive 98/68/EC (OJ No L261, 24.9.98) laying down the standard document referred to in Directive 95/53 and rules for checks on imports from third countries.

Other legislation relevant to animal feedingstuffs is:

1998 1046 **THE MEDICATED FEEDINGSTUFFS REGULATIONS 1998** which are the responsibility of the Veterinary Medicines Directorate, implement the following EC legislation:

Council Directive 90/167/EEC on the control of the manufacture, distribution and use of medicated feedingstuffs (i.e., feedingstuffs which contain veterinary medicines).

1999 1871 **THE FEEDING STUFFS (ZOOTECNICAL PRODUCTS) REGULATIONS 1999** which are also the responsibility of the Veterinary Medicines Directorate, implement the following EC legislation:

Council Directive 70/524/EEC (OJ No L270, 14.12.70) concerning additives in feeding stuffs (insofar as they relate to zootechnical additives -- defined as antibiotics, coccidiostats and growth promoters);

Council Directive 96/51/EC (OJ No L235, 17.9.96) amending Directive 70/524 insofar as it relates to zootechnical additives

1999 646 **THE ANIMAL BY-PRODUCTS ORDER 1999** specifies the methods to be used for processing and disposing of animal waste, which includes fishmeal, sets processing standards for catering waste intended for feeding to pigs and poultry, and requires rendered material to be used for feed to be tested for a number of pathogens. This Order, which is the responsibility of Department of Environment, Food and Rural Affairs, implements the following EC legislation:

Council Directive 90/667/EEC (OJ No L363, 27.12.90) laying down veterinary rules for disposing and processing animal waste, placing it on the market, and preventing pathogens in feedingstuffs of animal or fish origin.

2002 697

THE MEDICATED FEEDINGSTUFFS (AMENDMENT) (ENGLAND, SCOTLAND AND WALES) REGULATION 2002 - These

Regulations amend the Medicated Feedingstuffs Regulations 1998 in so far as they extend to England, Scotland and Wales. The 1998 Regulations as amended continue to implement Council Directive 90/167/EEC (OJ No. L92, 7.4.90, p.42) laying down the conditions governing the preparation, placing on the market and use of medicated feedingstuffs in the Community.

They provide (at regulation 2 and the Schedule) for new fees for application for approval or renewal of -

- premises manufacturing authorised intermediate products;
- premises which manufacture medicated feedingstuffs incorporating medicated pre-mixes; and
- distributors of medicated feedingstuffs.

The existing fee structure is changed and simplified. Previously, different fees were payable on an initial application for an approval, an application on renewal of an approval, and an application for an approval made outside the time limits in the Regulations. The new system specifies one fee for each of these applications. The previous fees are shown in the Schedule for comparison purposes.

Regulations 6 and 13 of the 1998 Regulations (which provide for late renewals) and references to them are revoked (regulation 2).

A Regulatory Impact Assessment has been prepared and has been placed in the library of each House of Parliament. Copies are available from the Veterinary Medicines Directorate, Woodham Lane, New Haw, Addlestone, Surrey KT15 3LS.

D: THIRD COUNTRY IMPORTS

(i) PRODUCTS OF ANIMAL ORIGIN: IMPORT AND EXPORT

SI Number

1996	No 3124	THE PRODUCTS OF ANIMAL ORIGIN (IMPORT AND EXPORT) REGULATIONS 1996 - implement Council Directives: 89/662/EEC of 30 December 1989 (OJ No. L395) as amended concerning veterinary checks in intra-Community trade with a view to the completion of the internal market;
------	---------	---

90/675/EEC of 31 December 1990 (OJ No. L373) as amended laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries

92/118/EEC of 15 March 1993 (OJ No. L62) as amended laying down animal and public and public requirements governing trade in and importing into the Community of products not covered by other vertical health Directives.

97/78/EC of 18 December 1997 (OJ No.L24) as amended laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries

These Regulations give effect to the Community's checking regime for assuring that intra-Community trade in and imports from third countries of products of animal origin comply with harmonised EC or, in their absence national, animal and public health rules.

The Regulations also make provision for the Secretary of State for the Department of Environment, Food and Rural Affairs or the local authority to recover the cost of veterinary checks on import of animal origin from third countries. They also give force to the vertical health rules applying to intra- Community trade in, and imports from third countries, of so called "Balai" products.

1997 No 3023

THE PRODUCTS OF ANIMAL ORIGIN (IMPORT AND EXPORT) (AMENDMENT) REGULATIONS 1997 - implement in part:

- Council Directive 96/43 of 26 June 1996 (OJ No. L162), amending and consolidating Council Directive 85/73/EEC, in order to ensure financing of veterinary inspections and controls on live animals and certain animal products;
- the agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products, which is annexed to Council Decision 97/132/EC of 17 December 1996 (OJ No. L57);

The Regulations give effect to Community provisions for standard minimum charges for veterinary checks on imports of certain meat and fishery products from third countries other than New Zealand; and to the provisions for minimum standard charges for veterinary checks on imports of products of animal origin from New Zealand.

2002 No 1227

THE PRODUCT OF ANIMAL ORIGIN (THIRD COUNTRY IMPORTS) (ENGLAND) REGULATIONS 2002 - These Regulations implement for England Council Directive 97/78/EC laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries (OJ No. L24, 30.1.98, p.9). The Directive applies to products of animal origin - meat, fish (including shellfish), milk and products made from these, together with egg products and a large number of animal by-products, including casings, skins, bones and blood. When read with Annex I to the Agreement on the European Economic Area (OJ No. L1, 3.1.94, p.3, as amended) the Directive requires that products of animal origin which enter the European Economic Area must undergo specified veterinary checks at border inspection posts to

ensure that they comply with requirements laid down by Community legislation for the protection of animal and public health.

The products to which the Regulations apply are defined in regulation 2(1) and Schedule 3 and the requirements with which they must comply are listed, by reference to the relevant Community legislation, in Schedule 2. Small quantities of products intended for personal use, and trade samples and products intended for exhibition or study or analysis are exempt from all but a few of the Regulations (regulation 3).

Regulation 4 defines the authorities who will enforce the Regulations. Usually these will be port health authorities, who must appoint official veterinary surgeons and official fish inspectors to conduct veterinary checks at each border inspection post in their area (regulation 6). Regulations 7, 8 and 9 confer the necessary enforcement powers.

Part III establishes the inspection system which will apply to the generality of products. The introduction into England of products which do not comply with the Schedule 2 requirements is prohibited, unless they are being transported across England (regulation 15). Products must be introduced at border inspection posts, advance notice of their introduction must be given, and they must be made available for inspection, together with required documentation, at a border inspection post (regulations 16 to 19). Regulations 21 to 28 deal with products which are rejected at inspection, are introduced illegally, or present a risk to animal or public health.

Parts IV to VIII lay down special provisions which apply to particular categories of product (on-board catering supplies, products intended for free circulation in the Community, products in transit across England, products intended for warehousing under particular customs regimes, and products exported from the Community and then returned to it).

Part IX deals with the calculation and payment of charges for the veterinary checks provided for in the Regulations; Part X confers on the Secretary of State and the Food Standards Agency power to prohibit the introduction of products into England from non-EEA countries in which there is an outbreak of animal disease; Part XI establishes offences and penalties; and Part XII deals with the form and service of notices and with notification of decisions.

The provisions of the Products of Animal Origin (Import and Export) Regulations 1996 (S.I. 1996/3124, as amended) which apply to products imported from third countries are disapplied in relation to England (regulation 63(2)).

SI Number

1984 No 1918

THE IMPORTED FOOD REGULATIONS 1984 - whilst these have largely been replaced by the Imported Food Regulations 1997 (SI 1997/2537 - see below), a number of measures for the protection of public health in relation to imports of food do continue. These

PART 7: OTHER PRIMARY LEGISLATION PROVIDING REGULATIONS AFFECTING FOOD

A: EUROPEAN COMMUNITIES ACT, 1972

Section 2(2) of the European Communities Act makes provision for any designated Minister or department to make regulations for the purpose of implementing any European Community obligations of the United Kingdom.

The following Regulations have been made under this Act:

SI Number

1997 No 1729

THE ANIMALS AND ANIMAL PRODUCTS (EXAMINATION FOR RESIDUES AND MAXIMUM RESIDUE LIMITS REGULATIONS

1997 - these Regulations came into force on 11 August and implement two EC Directives. Council Directive 96/22/EC continues the existing ban on the use of hormonal growth promoters in food producing animals within the EC and extends it to beta-agonists under certain circumstances. Council Directive 96/23/EC harmonises, improves and extends the present controls on the surveillance of veterinary medicinal residues in meat.

In implementing these requirements, the Regulations revoke and re-enact provisions formerly contained in the Animals, Meat and Meat Products (Examination for Residues and Maximum Residue Limits) Regulations 1991, the Medicines (Stilbenes and Thyrostatic Substances) Regulations 1982, the Medicines (Hormone Growth Promoters) (Prohibition of Use) Regulations 1988 and the Animals and Fresh Meat (Hormonal Substances) Regulations 1988.

The Regulations:

- prohibit the sale, possession or administration to animals of specified unauthorised substances;
- prohibit the possession, slaughter or processing of the meat of animals intended for human consumption which contain, or which have been administered with, specified unauthorised substances;
- prohibit the sale or supply for slaughter of animals if the appropriate withdrawal period has not expired and prohibit the supply for slaughter or subject to exceptions, the sale of animals or the sale of animal products which contain unauthorised substances or an excess of authorised substances;
- prohibit, subject to exception, the disposal for human or animal consumption of slaughtered animals containing specified unauthorised substances;
- empower authorised officers to inspect and examine animals and to take samples and provide for the analysis of official samples;
- provide for offences and penalties and for enforcement by each enforcement authority;
- specify requirements relating to record keeping.

1997 No 2893

THE CHARGES FOR INSPECTIONS AND CONTROLS REGULATIONS

1997 - these Regulations came into force on 1 January 1998 and give effect to Article 2 of Council Directive 85/73/EC on the financing of veterinary inspections and controls covered by Directives 89/662/EEC, 90/425/EEC, 90/675/EEC and 91/496/EEC. The text of Council Directive 85/73/EEC is set out in the Annex to Council Directive 96/43/EC.

In implementing these requirements, the Regulations revoke those provisions of the Meat (Hygiene, Inspection and Examinations for Residues) (Charges) Regulations 1995 (S.I. 1995/361, as amended) which relate to the subject- matter of these Regulations (regulation 6).

The Regulations:

- lay down the provisions requiring the fees to be paid to cover the costs of residues surveillance under 96/23/EC
- lay down the provisions relating to the liability for and recovery of those fees
- enable the appropriate Minister to require information and supporting evidence to be supplied to him for the purpose of enabling the Minister to calculate those fees and create offences of supplying false information or misleading information and failing to comply with a demand to supply information.

1998 No 2880 **THE CHARGES FOR INSPECTIONS AND CONTROLS (AMENDMENT) REGULATIONS 1998** - these Regulations, which came into force on 22 December 1998, amend the Charges for Inspections and Controls Regulations 1997.

The 1997 Regulations provided that the charge for inspection of milk residues covered by regulation 3(1) would, in accordance with arrangements for collection thereof by the Milk Development Council, be payable by producers of milk. These Regulations replace those arrangements for collection of the charge by providing that, where it relates to raw milk, it is to be paid to the Minister by the operator of the raw milk collection establishment as provided for in Council Directive 85/73/EEC (or, if there is no such establishment, its producer). They also provide for an automatic right of recovery which can be used by the collection establishment against the producer.

These Regulations also amend the Dairy Produce Quotas Regulations 1997 to provide that the Minister may, for the purposes of charge collection, be given access to relevant information held by the Intervention Board for Agricultural Produce.

Note: Enquiries on the legislation listed in Part 7A should be addressed to the Veterinary Medicines Directorate, Woodham Lane, New Haw, Addlestone, Surrey KT15 3LS, (Telephone 01932-336911, Ext. 8327).

B: AGRICULTURE AND HORTICULTURE ACT 1964 (CHAPTER 28 PART III)

Provides for the application and enforcement in Great Britain of European Community Regulations specifying the grading, marketing and labelling requirements for certain fresh fruit and vegetables and makes certain acts or omissions that contravene those rules punishable offences. Similar legislation applies in Northern Ireland. The Act is amended by:

The Trade Description Act, 1968 - CHAPTER 29, and:

PART 8: FOOD CONTROL

A: OFFICIAL CONTROL OF FOODSTUFFS

The Official Control of Foodstuffs Directive (89/397/EEC) was a key framework directive for the harmonisation of aspects of food law between EC member states. Adopted in 1989, it aimed to help establish the Single Market in Europe by achieving a consistent approach in the level of food law enforcement between EC member states in the run up to establishing the intended Single Market in 1992. The Directive did this by laying down the general principles to be followed by the national enforcement authorities of each EC member state. It established the main principles that:

- food should be inspected regularly at the point of production to avoid the need for border controls between member states;
- inspection procedures should be harmonised between member states;
- there should be mutual recognition of standards within the European Community; and
- details of member states' food law enforcement programmes should be submitted annually to the European Commission.

This Directive was implemented in GB through the Food Safety Act 1990. and through statutory Codes of Practice that guide GB enforcement authorities and which are made under that Act. Parallel legislation operates in Northern Ireland

B: ADDITIONAL FOOD CONTROL MEASURES

The Official Control of Foodstuffs Directive was supplemented in October 1993 by the adoption of the Additional Food Control Measures Directive (93/99/EEC). This Directive continued the theme of harmonising food law enforcement between member states by:

- requiring that all member states have, or have access to, a sufficient number of qualified and experienced food control officials;
- setting standards for food control laboratories, and criteria for validating methods of analysis;
- establishing a small Commission Food Inspectorate;
- improving the exchange of information between member states and between the European Commission and member states.

Note: Enquiries relating to the legislation listed in Parts 8A & B should be addressed to the Food Standards Agency, Local Authority Enforcement Division, Monitoring and Development Branch, Room 411C Aviation House, 125 Kingsway, London WC2B 6NH. (Telephone (0)20 7276 8419).

C: FOOD CONTROL OF IRRADIATION

SI Number

1990 No 2490

THE FOOD (CONTROL OF IRRADIATION) REGULATIONS

1990 - introduce a strict system of licensing for food irradiation plants, with restrictions on food which can be irradiated and the dose permitted. The regulations also include provisions for regular inspections and requirements for irradiated food, when stored or transported, to be accompanied by documentation stating that it has been irradiated thus enabling batches to be traced.

1996 No 1499

THE FOOD LABELLING REGULATIONS 1996 – require that all irradiated foods or listed ingredients of foods with the words "irradiated" or, "treated with ionising radiation". This includes requiring caterers to indicate on a menu, notice, ticket or label where irradiated ingredients are used.

Certain exemptions to these requirements for irradiated 'compound ingredients', i.e. if a food used as an ingredient is itself composed of two or more materials, were removed by the Food Irradiation Provisions (England) Regulations 2000. These also removed the option for caterers to use the words 'may contain'.

2000 No 2254

THE FOOD IRRADIATION PROVISIONS (ENGLAND) REGULATIONS 2000

– implement in England two EC Directives on food irradiation, which harmonise food irradiation controls

throughout the EU, through amendments to the Food (Control of Irradiation) Regulations 1990 and the Food Labelling Regulations 1996. Similar regulations exist in Scotland, Wales and Northern Ireland.

Directive 1999/2/EC – lays down the general provisions such as the conditions for treatment, the rules governing the approval and control of irradiation and changes the rules on the labelling of foodstuffs that have been treated with ionising radiation.

Directive 1999/3/EC – establishes an initial positive list of foodstuffs that can be treated with ionising radiation in accordance with Directive 1999/2/EC and freely traded within the European Community. At present this list only contains the item 'dried aromatic herbs, spices and vegetable seasoning'. There are transitional provisions in Directive 1999/2/EC pending completion of this list.

Note: Enquiries relating to the legislation controlling Food Irradiation should be addressed to the Food Standards Agency, Novel Foods Division, Room 515, address as above. (Telephone (0)20 7276 8595).

PART 9: FOOD PROTECTION IN AN EMERGENCY

A: THE FOOD AND ENVIRONMENT PROTECTION ACT 1985

Part I of the Act empowers Ministers to make emergency orders where they consider that circumstances exist, or may exist, which are likely to create a hazard to human health through the consumption of contaminated food. Such orders prohibit the distribution of affected produce from an area where foodstuffs have, or may have, been contaminated. In practice these powers are used only where there are no other statutory means of dealing with contaminated food (e.g. sector-specific legislation under the Food Safety Act 1990).

Part I of the Food and Environment Protection Act was amended by Section 51 of the Food Safety Act 1990. The Act also applies in Scotland and Northern Ireland.

B: FOOD HYGIENE (GENERAL)

Directive 93/43 EEC (OJ No. L175, 19.7.93, p.1) on the hygiene of foodstuffs lays down general rules of hygiene and procedures for verification of compliance with these rules. The Directive covers the preparation, processing, manufacturing, packaging, storing, transportation, distribution, handling and offering for sale or supply of foodstuffs not covered elsewhere by product-specific hygiene Directives. It also covers gaps in the product-specific hygiene Directives. For example, few of these Directives cover the sale or supply of their foodstuffs, and where they do not then Directive 93/43 does. Directive 96/3/EC grants a derogation from certain dedicated transport provisions of Directive 93/43 above, as regards the transport of bulk liquid oils and fats by sea. Commission Directive 98/28/EC grants a derogation from certain dedicated transport provisions of Directive 93/43, as regards the bulk transport of raw sugar by sea.

D: ORGANIC FOOD

SI Number

2001	No 2111	THE ORGANIC PRODUCTS REGULATIONS, 2001 -These Regulations, which apply to England and come into force on 19th March 2001, provide for the continued administration, execution and enforcement of Council Regulation (EEC) No. 2092/91 on organic production of agricultural products and indications referring thereto on agricultural products and foodstuffs, and of Commission Regulations supplementing that Regulation. A full list of amendments
------	---------	---

to Regulation 2092/91 is in Schedule 2 and a full list of the relevant Commission Regulations is in Schedule 1. Regulation 2092/91 has now been amended in particular by Council Regulation (EC) No. 1804/1999, which brings livestock production within the scope of Regulation 2092/91. Although Regulation 1804/1999 entered into force on 24th August 1999, only the prohibitions on the use of genetically modified organisms and their derivatives set out in that Regulation apply from that date. The rest of that Regulation applies from 24th August 2000 (Article 3 of that Regulation refers).

Regulation 3 designates the Minister of Agriculture, Fisheries and Food as the inspection authority responsible for the inspection system under Regulation 2092/91, as amended ("the Council Regulation"), and the approval of private inspection bodies. Producers, importers and processors of organic products covered by the Council Regulation are subject to this inspection system. For the purposes of enforcing Articles 9(9) and 10(3) of the Council Regulation (irregularities and infringements of the rules on labelling and production of organic products) the Minister, or the private inspection body as appropriate, must give the relevant local authority the information which the local authority needs to enforce the organic labelling provisions (regulation 3(2)). The Minister is also authorised to act on behalf of the Scottish Ministers in respect of any functions exercisable by them as the authority responsible for the operation of the inspection system, the approval and supervision of inspection bodies and certain other purposes (regulation 3(3)). (Power to enter into corresponding arrangements for such functions to be exercised by him on behalf of the National Assembly for Wales and the Department of Agriculture and Rural Development for Northern Ireland is conferred by, respectively, section 41 of the Government of Wales Act 1998 (c. 38) and section 28 of the Northern Ireland Act 1998 (c. 47).)

The Regulations impose an additional labelling requirement in respect of organic products in pursuance of Article 5 of the Council Regulation (regulation 4). The code numbers referred to in regulation 4 are contained in the UKROFS Standards for Organic Food Production, published by the Department of Environmental, Food and Rural Affairs. Details of the code numbers are available, free of charge, from Rural and Marine Environment Division, Branch D, Department of Environment, Food and Rural Affairs, Nobel House, 17 Smith Square, London SW1P 3JR (telephone 020 7238 5605; fax number 020 7238 6148).

Each local authority within its area will enforce regulation 4 and the provisions of the Council Regulation specified in column 1 of Schedule 3 to the Regulations, as read with any supplementary provisions listed in column 2 of that Schedule and, in the case of livestock and livestock products and as permitted by Article 12 of the Council Regulation as amended by Council Regulation (EC) No. 1804/1999, any additional standards for organic livestock and livestock products amongst those set out (which largely duplicate the EC standards) in the UKROFS Standards for Organic Food Production, February 2001 Edition, published by the Department of Environment, Food and Rural Affairs (a copy of which can be inspected, during normal office hours, at the address given above) (regulation 6(1)).

The Regulations also -

(a) provide for the payment of contributions to inspection expenses and access to the inspection system (regulation 5);

Guidance on how the requirements of Part III might be met is contained in The Code of Practice for Traders on Price Indications, available

THE PRICES ACT 1974

The Price Indications (Food and Drink on Premises) Order 1979, made under the Prices Act 1974, requires prices to be displayed on any premises where food and drink is or may be for sale for consumption by the public. The Order contains provisions on the number of prices to be shown, the inclusion of VAT and the circumstances under which the requirements differ, for example, whether the food or drink is supplied by self-service or not.

PART 13: WEIGHTS AND MEASURES LEGISLATION

THE WEIGHTS AND MEASURES ACT 1985

Section 28 of the 1985 Act makes short weight an offence. Orders made under Section 22 require most pre-packed food to carry on the container an indication of the net quantity of the contents. When sold other than pre-packed, most food is required to be sold either by quantity or by number. The seller has to make the quantity known to the purchaser. Orders made under the Act limit the quantities in which certain goods may be pre-packed when offered for retail sale (prescribed quantities).

Part V of the 1985 Act provides for the "average" system of quantity control for pre-packed goods sold by weight or volume.

The average system is designed primarily for application at the point of production or importation and requires the packer or importer to ensure that the packages will pass an Inspector's reference test.

The Act is amended by the Weights and Measures Act 1985, (Metrication) (Amendment) Order 1994 and the Units of Measurement Regulations 1994.
